

***Planning for
the Unexpected and Unavoidable:
Addressing Natural and
Anthropogenic Crises***

Dave Redford

NDT co-chair

US EPA

Meeting Objectives

- Build on discussions of priority issues identified in prior national meetings by using the theme, “Planning for the Unexpected and Unavoidable,” as a focus to further define technical and policy issues of national concern for the agencies and stakeholders.
- Exchange information on improved practices and tools to use for advanced planning and unexpected events that impact dredging.
- Identify future opportunities for continuing to share innovations and practical experiences that enhance these processes.

The Unexpected and Sudden

Iowa Welcome Center

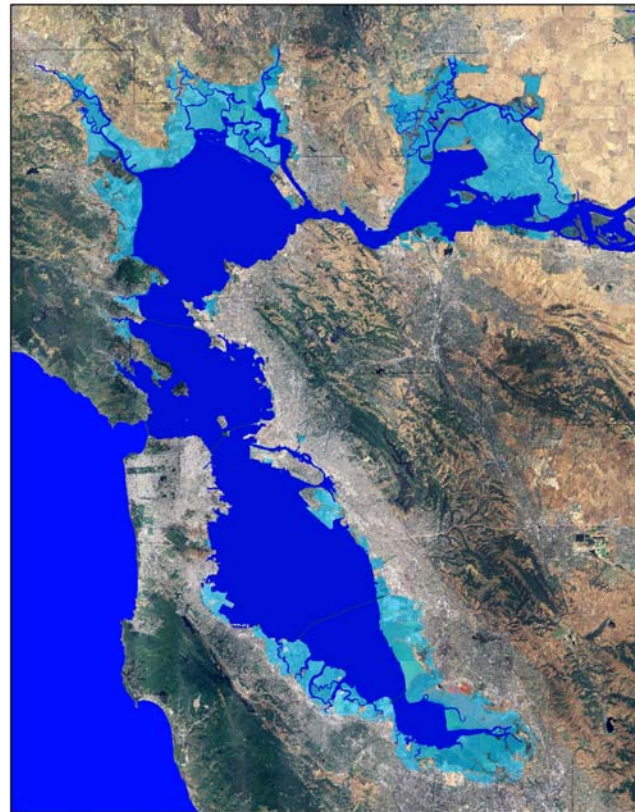

The Expected and Long-Term

The Unavoidable

San Francisco Bay Scenario for Sea Level Rise San Francisco Bay

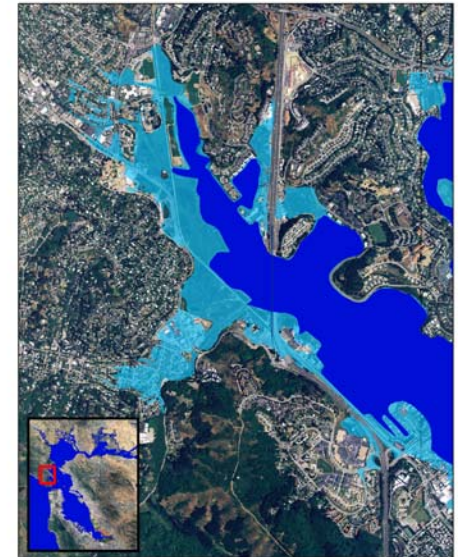

0 3 6 12 Miles

Map is based on USGS elevation data and NAIP imagery. Map is illustrative and depicts a potential inundation scenario in 2100. Limitations in the geospatial data available may affect accuracy. Map should not be used for planning purposes.

San Francisco Bay Scenario for Sea Level Rise Richardson Bay

0 0.15 0.3 0.6 Miles

Map is based on USGS elevation data and NAIP imagery. Map is illustrative and depicts a potential inundation scenario in 2100. Limitations in the geospatial data available may affect accuracy. Map should not be used for planning purposes.

San Francisco Bay Scenario for Sea Level Rise SFO

0 0.25 0.5 1 Miles

Map is based on USGS elevation data and NAIP imagery. Map is illustrative and depicts a potential inundation scenario in 2100. Limitations in the geospatial data available may affect accuracy. Map should not be used for planning purposes.

Outcomes

- Increased opportunities for advanced planning
- Identification of potential problems in dealing with unexpected events.
- Identification of priority next steps to improve advanced planning and interagency coordination
- Identification of available tools and resources for planning and responding
